I only used AI to gen the data

"I need to ask you to create some SQL data given a schema I need this data to not include these rows.

Physician (1, "John Doe", "Surgeon", 11111111)

Department (1, "Surgery", 1)

AffiliatedWith (1, 1)

Procedure (1, "Proc A", 1500.0)

Patient (1, 100001, "John Smith", "12 Foo Drive", "1980-01-01", "575-123-1234", 123454, 1)

Nurse (1, "Jane Doe", "Head Nurse", 333333)

Medication (1, "Med A")

Prescribes (1, 1, 1, "2022-01-15", "5/day")

Room (1, "Single")

Stay (1, 1, 1, "2022-01-07", "2022-01-20")

Undergoes (1, 1, 1, "2022-01-10", 1, 1)

OnCall (1, "2022-01-01", "2022-02-01")

Appointment (1, 1, 1, 1, "2021-12-05 14:00", "2021-12-05 15:00")

The schema is as follows " ....schema.............. " I want all my data to be in the theme of SpongeBob and I need 5 rows for all the tables"

https://chatgpt.com/canvas/shared/67bea130b7a48191817c05c56960e7e4

It worked well and I only had to change one thing for it to work.
